

ICCS ENRICHMENTS

Pre-Kindergarten through 5th Grade

ICCS promotes growth through the development of skills in less traditional curriculums involving visual arts, foreign language, music, technology, expressive communication and wellness.

ENRICHMENT	DESCRIPTION
COMPUTER	Study of computer literacy and keyboarding with an integration of core subjects. Students use cutting-edge technology to create digital projects and enhance classroom instruction while learning how technology is used in the real world. Students also learn about Internet safety, copyright laws, ethics, netiquette, and cyber-bullying.
LIBRARY	Study of basic skills needed to become independent library patrons, fostering a love of reading and literature, emphasizing library organization, using the electronic catalog, and use in standard library materials such as books, encyclopedias, and almanacs to locate information
MUSIC	Emphasizing the Kodaly Philosophy, study of music through folk songs and Liturgical music in order to enhance our worship services through student participation. Various opportunities to perform include a Christmas concert and an end-of-the-year program.
CHOIR	Performance of liturgical music at Masses and secular and sacred music at concerts throughout the school year for 5 th Graders only
PHYSICAL EDUCATION	Learning, developing, and applying skills needed for personal fitness utilizing standards for Presidential and National Fitness Awards
SPANISH	A brief introduction to Spanish taught through appropriate grade level curriculum
VISUAL ARTS	Creative, intellectual, and aesthetical study of art through the application of media techniques and processes with knowledge of art elements and principles of design
